Contents

Number 1, January 1984

1 M. ELAINE ROSE, JANE V. PEPPARD and S. M. HOBBS: Coccidiosis: characterization of antibody responses to infection with *Eimeria nieschulzi*

13 J. F. FINERTY, L. GASBARRE and L. P. KENDRICK: Kinetics of immunoglobulin and specific antibody responses of CBA mice infected with *Trypanosoma rhodesiense*

23 R. M. MAIZELS, D. DE SAVIGNY and B. M. OGILVIE: Characterization of surface and excretory-secretory antigens of *Toxocara canis* infective larvae

39 A. SAUL, P. MYLER, L. SCHOFIELD and C. KIDSON: A high molecular weight antigen in *Plasmodium falciparum* recognized by inhibitory monoclonal antibodies

51 A. K. CHEMTAI, M. VAECK, C. HAMERS-CASTERMAN, R. HAMERS and P. DE BAETSELIER: T-cell mediated immunity in murine malaria. I. Induction of T-cell dependent proliferative responses to *Plasmodium chabaudi*

63 M. PHILIPP, M. J. WORMS, DIANE J. MCLAREN, BRIDGET M. OGILVIE, R. M. PARKHOUSE and PATRICIA M. TAYLOR: Surface proteins of a filarial nematode: a major soluble antigen and a host component on the cuticle of *Litomosoides carinii*

83 DIANA M. A. JOHNSON and S. COHEN: Immunological detection of *Plasmodium knowlesi* antigens after electrophoretic transfer from SDS-polyacrylamide gels to diazophenylthioether paper

Number 2, March 1984

95 MARY M. FANNING and J. W. KAZURA: Genetic-linked variation in susceptibility of mice to *Schistosomiasis mansoni*

105 K. YOSHIMURA, K. UCHIDA, K. SATO and H. OYA: Ultrastructural evidence for eosinophil-mediated destruction of *Angiostrongylus cantonensis* transferred into the pulmonary artery of non-permissive hosts

119 C. AURIAULT, J. P. DESSAINT, CHRISTINE MAZINGUE, ANNE LOYENS and A. CAPRON: Non-specific potentiation of T- and B-lymphocyte proliferation at the early stage of infection by *Schistosoma mansoni*: role of factors secreted by the larvae

131 N. COWEN, R. CLANCY, A. CRIPPS and M. ALPERS: Serotypic variation of culture-adapted isolates of *P. falciparum*

141 SHEREE L. OXENHAM, C.D. MACKENZIE and D. A. DENHAM: Increased activity of macrophages from mice infected with *Brugia pahangi: in vitro* adherence to microfilariae

157 S. G. COUTINHO, J. A. LOUIS, J. MAUEK and H. D. ENGERS: Induction by specific T lymphocytes of intracellular destruction of *Leishmania major* in infected murine macrophages

171 P. M. KNOPF, K. C. SPITALNY and ANH DANG: Induction of a protective immune response in rats by injection of live or killed *S. mansoni* worms

185 Brief communication
R. M. MAIZELS, M. PHILIPP, A. DASGUPTA and F. PARTONI: Human serum albumin is a major component on the surface of microfilariae of *Wuchereria bancrofti*

Number 3, May 1984

191 T. G. EGWANG, J. GAULDIE and D. BEFUS: Broncho-alveolar leucocyte responses during primary and secondary *Nippostronglylus brasiliensis* infection in the rat

203 P. J. HOTEZ, N. LE TRANG, A. H. FAIRLAMB and A. CERAMI: Lipoprotein lipase suppression in 3T3-L1 cells by a haematoprotozoan-induced mediator from peritoneal exudate cells

211 M. E. GIL-RECASENS, S. CATS, M. LÓPEZ-OSUNA, Y. J. ROSENSTEIN, R. ROMO, J. CERVERA and R. R. KRETSCHMER: Increased leucocyte histamine release by *Entamoeba histolytica* antigen in patients with amoebic abscess of the liver

223 E. HANDMAN, H. M. JARVIS and G. F. MITCHELL: *Leishmania major*: identification of stage-specific antigens and antigens shared by promastigotes and amastigotes

235 K. N. MASIHI, H. WERNER, K.-E. GILLERT and W. LANGE: Chemiluminescence response of peritoneal exudate cells from mice infected with virulent and avirulent strains of *Toxoplasma gondii*

243 T. T. DOLAN, A. J. TEALE, D. A. STAGG, S. J. KEMP, K. M. COWAN, A. S. YOUNG, C. M. GROOCOCK, B. L. LEITCH, R. L. SPOONER and G. G. D. BROWN: A histocompatibility barrier to immunization against East Coast fever using *Theileria parva*-infected lymphoblastoid cell lines

251 MARTINE MARCHAND and T. BOON: *Trypanosoma cruzi* variants with reduced virulence obtained by mutagenesis

265 T. V. NGUYEN, J. MAUEL, R. J. ETGES, J. BOUVIER and C. BORDIER: Immunogenic proteins of *Leishmania major* during mouse infection

275 G. ORTEGA-PIERRES, C. D. MACKENZIE and R. M. E. PARKHOUSE: Protection against *Trichinella spiralis* induced by a monoclonal antibody that promotes killing of newborn larvae by granulocytes

Number 4, July 1984

285 HILDA PÉREZ, MERCEDES DE LA ROSA and INES MALAVÉ: The effect of protein restriction on the development of protective immunity to *Leishmania mexicana*

295 I. A. PENTTILA, P. L. EY and C. R. JENKIN: Reduced infectivity of *Nematospiroides dubius* larvae after incubation *in vitro* with neutrophils or eosinophils from infected mice and a lack of effect of neutrophils from normal mice

309 P. R. WOOD and I. A. CLARK: Macrophages from *Babesia* and malaria infected mice are primed for monokine release

319 A. SHER, S. HIENY and S. JAMES: Mechanisms of protective immunity against *S. mansoni* infection in mice vaccinated with irradiated cercariae. VI. Influence of the major histocompatibility complex

329 DOMINIQUE A. VUITTON, A. LASSÉGUE, J. P. MIGUET, P. HERVÉ, THÉRÈSE BARALE, ESTELLE SEILLÉS and A. CAPRON. Humoral and cellular immunity in patients with hepatic alveolar echinococcosis. A 2 year follow-up with and without flubendazole treatment

341 A. DASGUPTA, SHUKAL BALA and S. N. DUTTA: Lymphatic filariasis in man: demonstration of circulating antigens in *Wuchereria bancrofti* infection

349 E. GHADIRIAN and P. A. L. KONGSHAVN: Genetic control of susceptibility of mice to infection with *E. histolytica*

361 D. A. E. DOBBELAERE, P. R. SPOONER, W. C. BARRY and A. D. IRVIN: Monoclonal antibody neutralizes the sporozite stage of different *Theileria parva* stocks

371 J. F. HUNTLEY, G. NEWLANDS and H. R. P. MILLER: The isolation and characterization of globule leucocytes: their derivation from mucosal mast cells in parasitized sheep

391 A. HAQ, A. SHARMA and S. AHMAD: Increased macrophage migration factor production in hamsters sensitized by amoebic antigen and glucan

Number 5, September 1984

397 G. GRIMALDI, M. J. SOARES and PAMELA L. MORIEARTY: Tissue eosinophilia and *Leishmania mexicana mexicana* eosinophil interactions in murine cutaneous leishmaniasis

409 K. SUGANE and T. OSHIMA: Interrelationship of eosinophilia and IgE antibody production to larval ES antigen in *Toxocara canis* infected mice

421 B. HAMMERBERG, Y. RIKIHISA and MARGARET W. KING: Immunoglobulin interactions with surfaces of sheathed and unsheathed microfilariae

435 R. RAYBOURNE, R. S. DESOWITZ and C. SANGHIRUN: Antigen specific and concanavalin A-induced lymphocyte blastogenesis responses during the course of *Plasmodium berghei* infection in rats

443 CHRISTINE M. RZEPCZYK and C. J. BISHOP: Immunological and ultrastructural aspects of the cell-mediated killing of *Dirofilaria immitis* microfilariae

459 CHANTAL BOULARD and FIFI BENCHARIF: Changes in the haemolytic activity of bovine serum complement by *Hypoderma lineatum* (insect oestridae) larval proteinases in naive and immune cattle

469 A. K. CHEMTAI, C. HAMERS-CASTERMAN, R. HAMERS and P. DE BAETSELIER: T cell-mediated immunity in murine malaria. II. Induction of protective immunity to *P. chabaudi* by antigen fed macrophages and antigen educated lymphocytes

481 P. K. KATAAHA, CHRISTINE A. FACER, S. M. MORTAZAVI-MILANI, H. STIERLE and E. J. HOLBOROW: Stimulation of autoantibody production in normal blood lymphocytes by malaria culture supernatants

Number 6, November 1984

493 Point of view

493 G. F. MITCHELL: Towards molecular vaccines against parasites

499 PATRICIA PRICE and K. J. TURNER: Inmunological consequences of intestinal helminth infections. Humoral responses to ovalbumin

509 A. FERRANTE: The role of natural agglutinins and trypanolytic activity in host specificity of *Trypanosoma musculi*

519 C. J. BAYNE, E. S. LOKER, MARY A. YUI and JENNIFER A. STEPHENS: Immune recognition of *Schistosoma mansoni* primary sporocysts may require specific receptors on *Biomphalaria glabrata* hemocytes

529 P. B. FALANGA, J. F. FRANCO DA SILVEIRA AND L. PEREIRA DA SILVA: Protective immune response to *Plasmodium chabaudi*, developed by mice after drug controlled infection or vaccination with parasite extracts: analysis of stage specific antigens from the asexual blood cycle

545 ANN C. VICKERY and A. L. VINCENT: Immunity to *Brugia pahangi* in athymic nude and normal mice: eosinophilia, antibody and hypersensitivity responses

561 T. M. TRISCHMANN: Role of cellular immunity in protection against *Trypanosoma cruzi* in mice

571 A. FERRANTE and D. H. B. GOH: The effect of anti-malarial drugs on humoral natural killer cells *in vitro*
